Re: Utilization Of NXX Codes In The 718 NPA By AT&T
Landline And AT&T Wireless

Dear Mr. Varma:

This letter and its attachments respond to your recent requests that AT&T Communications of New York, Inc., (AT&T Landline) and its affiliate, Cellular Telephone Company, d/b/a AT&T Wireless Services (AT&T Wireless), provide certain information regarding NXX codes assigned to these companies in the 718 Numbering Plan Area (NPA).

Enclosed please find two one-sheet attachments. The first attachment, the response of AT&T Landline, lists the 4 NXX codes that have been assigned to AT&T Landline in the 718 NPA. All of the NXX codes were initially ordered, in various rate centers, in anticipation of offering Digital Link service. No additional NXX code requests have been made since mid-1997.

The second attachment is the response of AT&T Wireless. AT&T Wireless has 4 NXX codes in the 718 NPA and has not requested any further NXX codes in the past 6 months. AT&T Wireless has grandfathered all of its subscribers with 718 NPA numbers and assigns to all new customers numbers in the 917 NPA.

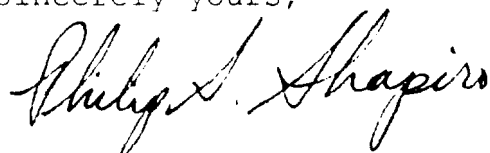

Information regarding a local carrier's subscription levels and the anticipated need for and use of numbering

resources is extremely valuable to its competitors. AT&T Landline and AT&T Wireless therefore deem the information contained in this letter and its attachments to be proprietary. Pursuant to Commission Rule 6-1.3(b), it is therefore requested that confidential treatment be accorded to the information contained therein to prevent competitive harm to the companies. It is also my understanding that the Commission has an independent obligation to keep the information confidential, pursuant to the Central Office Code Assignment Guidelines (INC 95-0407-008), which require that the Code Administration (in this case, the PSC acting on behalf of the Code Administration) treat such information as proprietary.

If additional information is desired regarding this request, please call me at 463-3092.

Sincerely yours,

A handwritten signature in black ink, reading "Philip S. Shapiro". The signature is written in a cursive, flowing style with a large initial "P".

Re: Trade Secret Status Of Information Requested By
Staff Regarding Utilization Of NXX Codes In The
718 NPA By AT&T Landline and AT&T Wireless

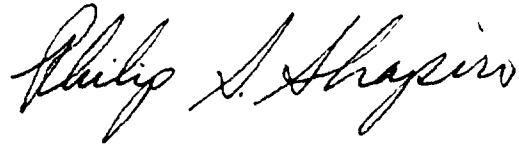

Dear Mr. Blow:

Pursuant to Commission Rule 6-1.3(b), AT&T Communications of New York, Inc., (AT&T Landline) and its affiliate, Cellular Telephone Company, d/b/a AT&T Wireless Services (AT&T Wireless), request that the Public Service Commission (PSC or Commission) grant trade secret status to the attached letter and attachments sent to Mr. Yog Varma of the PSC's Communications Division regarding the utilization of NXX codes assigned to these companies in the 718 Numbering Plan Area.

Information regarding a local carrier's subscription levels and the anticipated need for and use of numbering resources is extremely valuable to its competitors. AT&T Landline and AT&T Wireless therefore deem the information in the letter and its attachments to be proprietary, and request that confidential treatment be accorded to these documents and the information contained therein to prevent competitive harm to the companies. It is also my understanding that the Commission has an independent obligation to keep the information confidential, pursuant to the Central Office Code Assignment Guidelines (INC 95-0407-008), which require that the Code Administration (in this case, the PSC acting on behalf of the Code Administration) treat such information as proprietary.

If additional information is desired regarding this submission, please call me at 463-3092.

Sincerely yours,

A handwritten signature in cursive script, reading "Philip S. Shapiro". The signature is written in dark ink and is positioned above the printed name.

REQUEST FOR CONFIDENTIAL TREATMENT

April 16, 1998

Ms. Gayle Radley Teicher, Attorney
Federal Communications Commission
Network Services Division
2000 M Street, N.W.
Washington, DC 20554

RE: New York Department of Public Service Petition for Expedited Waiver of
47 C.F.R. 52.19(c)(3)(ii); NSD File No. L-98-03; Response to the
Commission's Request for NPA/NXX information.

Dear Ms. Gayle Radley Teicher

Pursuant to a letter of request by the Federal Communications Commission ("Commission") to the New York State Department of Public Service in the above referenced proceeding, MCI Telecommunications Corporation ("MCI") is providing the enclosed 718 NPA NXX information, which MCI provided to the New York State Department of Public Service on March 20, 1998. MCI is providing the attached data directly to the Commission to request confidential treatment of the information.

MCI hereby requests confidential treatment of the attached information, pursuant to sections 0.457(d) and 0.459 of the Commission's rules, 47 C.F.R. §§ 0.457(d), 0.459. The attached materials contain proprietary and highly sensitive commercial and financial data, which is customarily guarded from competitors and not released to the public.

MCI requests that the Commission return the materials without consideration, pursuant to section 0.459(e), if this request for confidentiality is denied. As you indicated during our phone conversation, I have enclosed four copies of the information.

Sincerely,

Michael D. Specht

Re: Request for Trade Secret Status

Dear Mr. Blow:

MCImetro Access Transmission Services, Inc. ("MCImetro") requests that its response to Staff's 718 NPA data requests, dated February 23, 1998, be granted trade secret status under paragraph (d) of subdivision 2 of section 87 of the Public Officers Law ("POL"). MCImetro requests that the information contained in its response to Staff's data requests be exempt from public disclosure on the grounds that such information is a trade secret, that if disclosed, would cause substantial and unfair competitive damage to MCImetro.

The information contained in MCImetro's response is not known by others and is only available by means of government disclosure. The information that MCImetro seeks to protect is valuable commercial information, that if known to MCImetro's competitors, would reveal competitive information about MCImetro's business in New York State. If MCImetro's competitors were given access to this information, they would know precisely where MCImetro has facilities in New York State and where MCImetro is making a strong competitive effort and where it is not doing so. With this information, competitors would be able to tailor or adjust their competitive efforts to gain a competitive advantage in the marketplace. Hence, disclosure of this information is likely to cause substantial competitive injury.

For the reasons stated above, MCImetro's request for trade secret status should be granted.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Kimberly A. Scardino", with a long horizontal flourish extending to the right.

Kimberly A. Scardino

Re: 718 NPA Information

Dear Mr. Varma:

MCImetro Access Transmission Services, Inc. ("MCImetro") submits the attached response to the six data requests for the 718 NPA set forth in your February 23, 1998 letter of request. MCImetro has requested that trade secret status be granted for the information contained herein. A copy of MCImetro's request for trade secret status is attached.

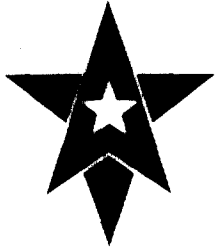

Please let me know if you have any questions relating to MCImetro's response to your data requests.

Very truly yours,

Kimberly A. Scardino

Re: Response to 718 Area Numbering Resource Utilization Data Requests

Dear Mr. Varma:

I am responding to your letter to Mr. Royce Holland dated February 23, 1998. In that letter you requested certain information pertaining to Allegiance Telecom of New York, Inc.'s ("Allegiance's") use of NXXs in the 718 NPA. As noted below, each of the NXXs that Allegiance addresses herein were initially assigned to US One Communications Services Corporation on a date unknown to Allegiance and was subsequently assumed by Allegiance during Allegiance's acquisition of US One's New York City switch in which each was already resident. Currently, Allegiance is not operational. Therefore, Allegiance responds as follows for the 718 NPA:

1. List each of the NXX codes assigned to your company in the 718 NPA and indicate whether the NXX code was assigned:
 - a. on or before December 31, 1995 or
 - b. after January 1, 1996 (please indicate the assignment and activation dates for all NXX codes in this category)

NXX 371: Initially assigned to US One Communications Services Corporation on a date unknown to Allegiance; subsequently assumed by Allegiance during Allegiance's acquisition of US One's New York City switch in which this NXX was already resident.

NXX 532: Same as for 371, above.

NXX 744: Same as for 371 and 532, above.

Mr Yog R. Varma
March 10, 1998
Page 2 of 3

2. For each NXX code assigned to you, please provide the degree of utilization of each 1,000 number block.

Allegiance is not yet operational; therefore, the utilization for each of the number blocks associated with each of the above-listed NXXs is zero percent.

3. List each of your switches serving local exchange customers, indicate where each of these switches is located, and the NXX codes served by each switch.

Allegiance currently has only one switch. The CLLI assigned to that switch is NYCMNYZRDCO and it is located at 60 Hudson Street in New York City. Each of the NXXs identified in 1, above, is resident in that switch of Allegiance.

4. Provide the number of working telephone numbers within each NXX code. Separately indicate (as defined in the guidelines referred to above) how many telephone numbers are:
 - a. assigned but not yet working,
 - b. working,
 - c. reserved, and
 - d. on intercept.

Allegiance is not yet operational; therefore, none of the telephone numbers within each code is working, none is assigned, none is on intercept and none is reserved for a particular customer. Please note, however, that Allegiance expects to activate its switch within the next thirty days and therefore needs the numbers in order to begin serving new customers.

Mr Yog R. Varma
March 10, 1998
Page 3 of 3

5. Indicate any special circumstances or other comments associated with each NXX code.

Allegiance expects to activate its switch within the next thirty days and will begin utilizing the above-cited numbers at that time.

6. Provide copies of any "months to exhaust certification worksheets" (i.e., Appendix B of the NXX code request form) which are associated with any NXX growth code requests made during 1997 and 1998.

Allegiance has not submitted any NXX growth code requests in the 718 NPA; therefore, Allegiance has no completed worksheets to produce here.

Please note that I answered data request number 1. for the 718 NPA, not the 516 NPA which appears seemingly inadvertently in your letter. I will promptly provide to you that information for the 516 NPA if you notify me that I had misinterpreted your request. Please feel free to contact me if you have any questions or need additional information. I may be reached directly by dialing 214-853-7117. Thank you.

March 20, 1996

Dear Mr. Varma

This letter is in response to your request for information regarding Time Warner number utilization in the 718 area code.

1. List NXX code assigned

on or before December 31, 1995	NONE
after January 1, 1996	560 : April 21, 1997 600 : April 21, 1997

2. Utilization. Under development. will be forwarded as soon as it is available.

3. Both NXXs are working at the switch located at 120 E. 23rd St New York, NY.

4.

	Assigned not working	working	reserved	on internet
560	0	5100	35	0
600	0	200	1	0

5. Copies are being used to correspond to the Metro and Flushing rate centers

6. Copies will be faxed.

Please contact me at 203-320-4002 if you have any questions.

Sincerely,

Royelle D. Jones

FROM: Michael J. Nighan
Frontier Local Services

RE: 718 NXX Status

Tom:

Sorry for the delay, but here is where things stand.

Frontier Local Services Inc. has been assigned the following NXXs within the 718 NPA:

362. 408

Currently Frontier has no customers within these NXXs and as such has not yet assigned any of the ANIs .

However, based on Frontier's current market projections, we will require one additional NXX in the 718 NPA on or about January 1, 2001, and a second additional NXX the following year.

If I can be of any further assistance, please contact me at 716.777.8456.

Re: Case 96-C-1158 —Proceeding on Motion of the Commission,
Pursuant to Section 97(2) of the Public Service Law, to Evaluate the
Options for Making Additional Central Office and/or Area Codes
Available in New York City

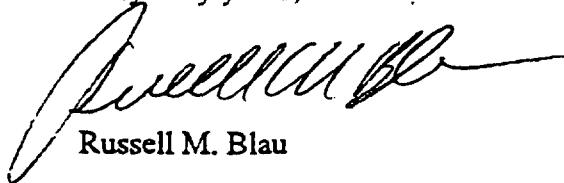

Dear Mr. Burke:

This letter is written on behalf of RCN Telecom Services of New York, Inc. ("RCN") in response to your telephone call to our office on April 21, 1998. In that call, you had asked whether RCN would consent to the limited release of information regarding its NXX code utilization in the 718 area code. By letter dated April 15, 1998, RCN had declined to allow this information to be furnished to the Federal Communications Commission ("FCC") and all of the parties in the FCC's CC Docket No. 96-98, as had been previously requested by the Department of Public Service.

RCN agrees to the limited disclosure of NXX code utilization information as described in your telephone call yesterday. Specifically, RCN consents to the release of this information only if the specific NXX codes held by RCN are redacted from the copy provided to the FCC.

Thank you for your attention to this matter. Please do not hesitate to contact us if you have any questions regarding this correspondence.

Very truly yours,

Russell M. Blau

Re: Case 96-C-1158 --Proceeding on Motion of the Commission, Pursuant to Section 97(2) of the Public Service Law, to Evaluate the Options for Making Additional Central Office and/or Area Codes Available in New York City

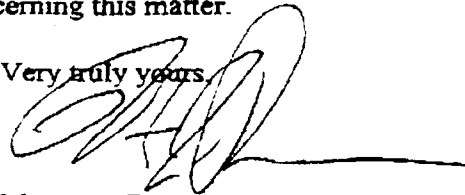

Dear Mr. Varma:

This letter is written on behalf of RCN Telecom Services of New York, Inc. ("RCN") in response to your April 10, 1998 correspondence in the above-referenced matter. In that correspondence, you had asked whether RCN would allow the Department to disclose the proprietary 718 area code NXX utilization information that RCN had furnished to the Department in March. According to your letter, this information would be shared with the FCC and all of the parties in the FCC's CC Docket No. 96-98.

RCN cannot consent at this time to any release of the information regarding its utilization of NXX codes in the 718 area code. RCN considers this information highly sensitive, and if released publicly, this information could reveal marketing and/or technical strategies employed by RCN in building a customer base in the 718 area code. Thus, for competitive reasons, RCN respectfully requests that the Department continue to treat RCN's NXX utilization data as proprietary information that should not be made publicly available.

Thank you for your attention to this matter. Please do not hesitate to contact me at the number provided below if you have any questions concerning this matter.

Very truly yours,

Re: **718 NPA Code Utilization Data of RCN of New York**

Dear Mr. Varma:

This will respond to your February 23, 1998 letter to RCN Telecom Services of New York, Inc. d/b/a RCN of New York ("RCN") requesting NXX code utilization data for the 718 NPA. Kindly consider this information as proprietary to RCN and not for public disclosure.

1. **List each of the NXX codes assigned to your company in the 718 NPA and indicate when each of these codes was assigned to your company and indicate whether the NXX code was assigned:**

- a. **on or before December 31, 1995 or**
- b. **after January 1, 1996 (please indicate the assignment and activation dates for all NXX codes in this category)**

See information on attached Fill Rate chart. No codes were assigned prior to January 1, 1996. The assignment dates are unavailable.

2. **For each NXX code assigned to your, please provide the degree of utilization of each 1,000 number block.**

See information on attached Fill Rate chart.

3. **List each of your switches serving local exchange customers, indicate where each of these switches is located, and the NXX codes served by each switch.**

All of RCN's NXX does in the 718 NPA are served by switch NYCLNYOJDSO, located at 333 West Houston Street, New York, NY 10036.

4. **Provide the number of working telephone numbers within each NXX code. Separately indicate (as defined in the guidelines referred to above) how many telephone numbers are:**
- a. **assigned but not working**
 - b. **working**
 - c. **reserved**
 - d. **on intercept**

5. **Indicate any special circumstances or other comments associated with each NXX code.**

Currently, RCN offers only resold telecommunications service in wire centers indicated in the attached Fill Rate chart. RCN intends to migrate its resale customers to RCN's facilities-based offering by assigning them telephone numbers in RCN's NXXs in the 718 NPA that have the last four digits matching their current telephone number. Thus, the telephone numbers identified in the chart are reserved in anticipation that a significant majority, if not all, of these RCN customers will ultimately utilize numbers within the NXX code.

6. **Provide copies of any "months to exhaust certification worksheets" (i.e., Appendix B of the NXX code request form) which are associated with any NXX growth code requests made by your company during 1997 and 1998.**

RCN did not prepare any of these worksheets as it has never requested any growth codes.
